SUMMARY

Motivated third-year Information Technology student with hands-on experience in full-stack web development, embedded systems, and sensor-based applications. Skilled in MERN stack development, object-oriented programming, and database management with strong problem-solving abilities demonstrated through 300+ coding problems solved across competitive programming platforms.

EDUCATION

Institute of Engineering and Technology (IET DAVV)
Bachelor of Technology in Information Technology
CGPA: 7

Indore, India
2023 – 2027

Vaishnav Higher Secondary School
Class XII (MP Board) – 83%
Class X (MP Board) – 85%

Pithampur, India
2022
2020

COURSEWORK

Data Structures and Algorithms | Operating Systems | Database Management Systems | Computer Networks | Object-Oriented Programming | Software Engineering

PROJECTS

AI Website Builder

- Developed an AI-powered website builder using the MERN stack to generate responsive web pages from user prompts.
- Integrated AI APIs for automated content, layout, and styling generation with real-time preview functionality.
- Implemented RESTful APIs, authentication, and scalable backend architecture for efficient data handling.

Netflix UI Clone

- Built a responsive Netflix-inspired landing page using HTML and CSS with modern UI components and layouts.
- Improved frontend development skills by implementing responsive design principles and clean styling practices.

SKILLS

Programming Languages: C++, Java, JavaScript, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Express.js, Spring Boot, Hibernate

Databases: MySQL, PostgreSQL, MongoDB

Core Concepts: Data Structures and Algorithms, OOPs, DBMS, Computer Networks

Developer Tools: GitHub, VS Code, MySQL Workbench

Soft Skills: Leadership, Critical Thinking, Creativity, Problem Solving

ACHIEVEMENTS

- Solved 300+ algorithmic coding problems across multiple competitive programming platforms.
- Strengthened problem-solving and analytical skills through consistent practice in data structures and algorithms.
